Subject: Sharing SICVEC 2026's free online participation with your network

Dear Prof. Renon Eller,

As a confirmed keynote speaker of the **International Symposium on Green Science and Circular Economy (SICVEC 2026)**, we would like to ask you an additional favour.

The symposium offers **free online participation** for external and international attendees, including a certificate of participation, through a simple, free online registration for that format. We would be delighted if colleagues, students and researchers at the Universidade Federal de Viçosa could join us, especially during your talk. We would be very grateful if you could share this information at your institution, through whichever channels you find appropriate.
